#### The Bachelor of Science in Biology degree with

Organismal & Field Biology emphasis is designed for students who are interested in field-oriented biology, such as environmental science (natural history, fish and game, national and state parks and refuges, etc.), in other areas with more emphasis on organismal biology, or science education.

#### MILESTONE COURSES

Courses marked as Milestone Courses are crucial for staying on track to complete your degree in four years. Take them in the recommended semester to stay on track! If you see a recommended minimum grade, this is the grade you need to earn to have the best chance for success in this degree! Grades marked with an asterisk are required to pass.

#### LANDMARKS

Points where you see a landmark icon on the four-year plan indicate you have reached a point of action outside regular coursework! See the Helpful Hints for information on each landmark.

### HELPFUL HINTS

- Use this plan in consultation with your Academic Advisor.
- This four-year plan assumes you begin your degree in the Fall semester. Courses in **bold** are only offered during the semester shown.
- Semesters 1 & 2: MATH 103 and MATH 104 are *not* required for this degree, but are recommended. Also, MATH 103 & 104 or equivalent proficiency is required for PHYS 101.
- See the [Academic Catalog](#) and discuss with your advisor about courses that fulfill the Directed Elective requirements and align with your career goals.

*HELPFUL HINTS*

- Students must take either BIOL 302 *or* BIOL 401.
- Students must take three (3) courses from: BIOL 201, 202, 301, & 369.
- There are several options when choosing which courses to take. Discuss with your advisor which courses align with your career goals.
- Semester 8 Landmark—Students completing the biology capstone will analyze a current issue in biology, write a critical review, and give an oral presentation which is open to the public. **At the end of the course, comprehensive program assessments are administered; a passing grade must be obtained.** *Students have the option to take BIOL 470: Senior Independent Research I (3) and BIOL 471: Senior Independent Research II (3) instead of BIOL 455.*
